CAMBRIDGE INTERNATIONAL EXAMINATIONS

Cambridge International Advanced Subsidiary and Advanced Level

MARK SCHEME for the October/November 2015 series

9706 ACCOUNTING

9706/23 Paper 2 (Structured Questions – Core), maximum raw mark 90

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2015 series for most Cambridge IGCSE®, Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is the registered trademark of Cambridge International Examinations.

1 (a) Anton
Income Statement for the year ended 30 September 2015

	$		$	
Revenue (10 500 **(1)** + 153 300 + 9670 **(1)** + 20 476 **(1)**)			172 946	
Less cost of sales				
Inventory at 1 October 2014	24 640			
Purchases				
Less goods for own use (119 690 **(1)** – 1842 **(1)**)	117 848			
	142 488			
Less Inventory 30 September 2015	(27 200)	**(1)**	115 288	
Gross Profit			57 658	**(1of)**
Less expenses				
Rent (8500 + 2400 – 1500)	9 400	**(1) both adj**		
Wages	17 800			
Electricity	7 540			
General expenses	4 630			
Depreciation				
– delivery vehicles (20 300 **(1)** – 1360 **(1)**) × 20%	3 788	**(1of)**		
– office fixtures	900			
Delivery vehicle expenses				
(980 + 20 476 **(1)** – 12 900 – 7200 **(1both)** – 445)	911	**(1)**		
Loss on delivery vehicle (9000 – 1800 – 1440**(1)** – 5400)	360	**(1)**	45 329	
Profit for the year			12 329

Anton
Statement of Financial Position at 30 September 2015

	$ Cost		$ Acc Dep	$ NBV	
Non-current assets					
Office fixtures	9 500		900	8 600	**(1)**
Delivery vehicles	20 300	**(1)**	5 148	15 152	**(1)**
	29 800		6 048	23 752	
Current assets					
Inventory				27 200	**(1of)**
Trade receivables				9 670	
Cash				445	
				37 315	
Total assets				61 067	
Capital and liabilities					
Opening capital				40 150	**(1)**
Add: Profit for the year				12 329	
				52 479	
Less: Drawings: goods				(1 842)	**(1 of both)**
cash				(7 200)	
				43 437	
Current liabilities					
Trade payables				13 460	
Other payables				2 400	
Bank				(1 770)	**(2)**
				17 630	
Total capital and liabilities				61 067	

Workings
Opening capital: 9500 + 15 700 + 10 500 + 980 + 24 640 = 61 320
Less 12 670 + 1500 + 2 400 + 4 600 = 21 170 = 40 150
Closing inventory 40 800 / 3 × 2 = 27 200
Delivery vehicles 15 700 – 9000 + 13 600 = 20 300 cost

	$			$	
Int on drawings	350	**(1)**	Balance	5 000	**(1)**
Drawings	5 000	**(1)**	Int on capital	4 900	**(1)**
Balance c/d	71 068		Salary	17 400	**(1)**
			Profit share	49 218	**(1of)**
	76 418			76 418	
			Balance b/d	71 068	**(1)**

[7]

(c) Depletion, wear and tear, obsolescence, technological advance, usage, time, any other acceptable answer **(1 mark per point)**

Any 4 to a maximum of 4 **[4]**

(d) Matching – to match costs with income generated.
Prudence – so as not to overstate profits.
Consistency – using the same depreciation method.

Any 2 to a maximum of 4 [1 concept, 1 explanation] **[4]**

(e) Motor vehicles tend to fall in value more in the early years. **(1)** They lose value the minute they are registered for use. Repair and maintenance costs increase as the motor vehicle gets older **(1)**. The straight line method of depreciation depreciates the vehicle at the same amount each year which does not balance up the increasing repair and maintenance costs in later years. **(1)** However, the reducing balance method depreciates the motor vehicle more in the earlier years and less in later years. The reducing balance method therefore depreciates the asset less in later years which balances with the increasing repair and maintenance costs thus providing a fairer matching of costs with income generated **(1).**

1 mark to a maximum of 4 **[4]**
