# Cambridge IGCSE™

TRAVEL & TOURISM
Paper 1 Core Module
MARK SCHEME
Maximum Mark: 100

Published

Students did not sit exam papers in the June 2020 series due to the Covid-19 global pandemic.

This mark scheme is published to support teachers and students and should be read together with the question paper. It shows the requirements of the exam. The answer column of the mark scheme shows the proposed basis on which Examiners would award marks for this exam. Where appropriate, this column also provides the most likely acceptable alternative responses expected from students. Examiners usually review the mark scheme after they have seen student responses and update the mark scheme if appropriate. In the June series, Examiners were unable to consider the acceptability of alternative responses, as there were no student responses to consider.

Mark schemes should usually be read together with the Principal Examiner Report for Teachers. However, because students did not sit exam papers, there is no Principal Examiner Report for Teachers for the June 2020 series.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the June 2020 series for most Cambridge IGCSE™ and Cambridge International A & AS Level components, and some Cambridge O Level components.

## **Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

#### GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

#### **GENERIC MARKING PRINCIPLE 2:**

Marks awarded are always whole marks (not half marks, or other fractions).

#### **GENERIC MARKING PRINCIPLE 3:**

## Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit
  is given for valid answers which go beyond the scope of the syllabus and mark scheme,
  referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

## **GENERIC MARKING PRINCIPLE 4:**

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

### **GENERIC MARKING PRINCIPLE 5:**

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

#### GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Question	Answer	Marks
Question 2(e)	Discuss the interrelationship between sightseeing tours and tourist attractions.  Indicative content: Promote each other Bring tourists to the attractions Sell tickets for each other Arrange special deals/discounts between the two Inform/raise awareness of the attractions  Credit all valid responses in context.  Level 3 (5–6 marks) can be awarded for evaluative comment about the significance/importance of the interrelationship. Better answers may have a reasoned conclusion.  Level 2 (3–4 marks) can be awarded for an analysis clearly indicating how the interrelationship benefits the other/both.  Level 1 (1–2 marks) will identify up to two valid ways that they interrelate providing some detail within the context but will be mainly descriptive.  Sightseeing tours drop off and collect tourists at key tourists attractions, [L1] which is convenient for the tourists and attractions are a good source of customers for the tours [L2]. A further reason is that these are places that the tour passengers want to visit [L1]. Tourist attractions benefit from the tourists being transported directly to the attraction [L2]. As the attractions are key drop off and pick up points, the sightseeing tour will sell tickets to passengers for their convenience and to offer a good service [L2]. Equally the attractions will sell tickets to the sightseeing tour [L2]. With this	Marks 6
	interrelationship both tourism organisations can benefit and provide good service and convenience for their guests/passengers [L3].

Question	Answer	Marks
3(e)	Discuss the ways destinations can increase tourism demand out of the main season.	6
	Indicative content: New/adapt attractions - suitable for low seasons Events out of season Market to new segments e.g. business/education Increase quality of provision	
	Credit all valid responses in context.	
	<b>Level 3 (5–6 marks)</b> can be awarded for evaluative comment about the significance/importance. Better answers may have a reasoned conclusion.	
	Level 2 (3–4 marks) can be awarded for an analysis clearly indicating how it increases tourism demand out of season.	
	<b>Level 1 (1–2 marks)</b> will identify up to two valid ways providing some detail within the context but will be mainly descriptive.	
	Destinations can build or attract new attractions [L1] that will provide a year-round appeal for the destination. Large scale, internationally known, branded attractions often provide this [L2]. Alternatively, destinations can market products and services to new tourist types/market segments for example business tourists [L1] who will visit throughout the year for conferences or meetings [L2]. Providing a year-round appeal will result in a more sustainable tourist industry [L3] and increases the benefits for the host population [L3].	
4(a)	State three providers of travel and tourism products, other than tour operators.	3
	Award one mark for each correct identification.	
	Tourist/visitor attractions Accommodation providers/hotel/bed and breakfast Transport providers/airplane/coach/taxi Travel agents Sightseeing tours

Question	Answer	Marks
4(e)	Discuss the importance of consumer protection for tourists booking a package holiday.	6
	Indicative content: Protection if company becomes insolvent Bring tourist back from destinations Assurance of a good and reliable product Protects tourist rights Legal framework	
	Credit all valid responses in context.	
	<b>Level 3 (5–6 marks)</b> can be awarded for evaluative comment about the significance/importance of the reason. Better answers may have a reasoned conclusion.	
	Level 2 (3–4 marks) can be awarded for an analysis clearly indicating how the reason benefits the tourist.	
	<b>Level 1 (1–2 marks)</b> will identify up to two benefits reasons providing some detail within the context but will be mainly descriptive.	
	Consumer protection schemes provide assurance to tourists that they will be correctly looked after [L1]. Tourists can be assured that they will be returned home from their destination if the company becomes insolvent during their holiday [L2]. Consumer protection also provides a legal framework should something go wrong [L1]. Tourists will want to have a good holiday, but if something does go wrong, they can seek compensation/recompense once they return using this legal framework [L2]. It is important to protect tourists when purchasing from companies so that they can be protected and not exploited [L3].
