

CAMBRIDGE INTERNATIONAL EXAMINATIONS
GCE Ordinary Level

MARK SCHEME for the October/November 2012 series

5090 BIOLOGY

5090/62

Paper 6 (Alternative to Practical), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2012 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Page 2	Mark Scheme	Syllabus	Paper
	GCE O LEVEL – October/November 2012	5090	62

- 1 (a) (i) 10 minutes ;
5 minutes ; [2]
- (ii) speeds up / increases (rate of) reaction **OR** decreases time taken / **AW** ;
twice / x2 **OR** half; [2]
- (b) (i) make observation of colour / results, clear(er) / (more) easily seen / **AW** ; [1]
- (ii) mix the contents / **AW** ; [1]
- (iii) same (total) volume (of liquid) in each test-tube / **AW** ;
instead of sodium chloride solution ; [2]
- (iv) same / equal (volume of substrate / starch solution) in each; [1]
- (v) reference to control / comparison / prove enzyme in A active / **AW** ; [1]
- (c) (i) 1. axes correctly orientated, pH on x, time on y + fully labelled pH and time with units ;
2. scale on y axis such that graph fills at least half printed grid and both scales linear, increasing from the origin ;
3. plots clear and all correct ;
4. curve either cleanly drawn through most plots or plots neatly joined by (ruled) lines;
R. if line extrapolated to 0 (zero) on y axis at either end [4]
- (ii) 5 ; [1]
A. if not 5 but the correct reading from the graph drawn is given
- (iii) activity increases as pH increases up to optimum / pH5 ;
after optimum activity decreases as pH increases ;
high / low pH denatures / inactivates enzyme / enzyme (gradually) stops working ;
changes shape of active site of enzyme ;
A. enzyme destroyed
R. enzyme killed

[Max 3]
[Total: 18]

Page 3	Mark Scheme	Syllabus	Paper
	GCE O LEVEL – October/November 2012	5090	62

- 2 (a) (i) Drawing:
 at least 80 mm (left to right) + outline drawn with smooth clear continuous line and no shading anywhere ;
 good proportions with wider area between testa and cotyledon on right hand side than elsewhere ;
 radicle and plumule well drawn ;
- Labels:
 testa / seed coat ;
 cotyledon ;
 radicle + plumule ; [6]
- (ii) correct measurements in mm recorded on given lines or on Fig. 2.1 and drawing ;
 correct expression used ;
 allowance made for x4 magnification of Fig. 2.1 ;
 correct calculation anywhere with x or times and no units and *no more than 2 dps* or 2 sig. figs; [4]
- (b) (i) the groundnut / it
 (fruit) is shorter / wider / smaller ;
 (fruit) more rounded / no point v point present;
 has fewer seeds ;
 has larger seeds;
 has more closely packed seeds / no gaps v gaps; [Max 3]
 all must be comparative ;
- (ii) mass / weight / volume of seed constant / same amount ;
 grinding / **AW** of seed ;
 (add) biuret (reagent/solution) ;
 constant volume of reagent / biuret / sodium hydroxide (+ drops of copper sulfate);
 blue becomes purple / mauve / violet / lilac / **AW** (if protein present) ;
 comparison (of results / colour) ; [Max 4]
- [Total: 17]
- 3 (a) one bone in **upper part** ;
 two bones in **lower part** ;
 (these) two bones side by side ;
 (these) two bones cross over
 long bone(s) (compared to width) ;
 5 digits / pentadactyl ;
A. fingers for digits
 many bones in hand/wrist and foot/ankle ; [Max 3]

	GCE O LEVEL – October/November 2012	5090	62

(b) X (like) hinge / up and down / one plane / two directions or dimensions / 180° / backwards and forwards;

A. bends and straightens

Y (like) ball and socket / rotation / 2 planes / all directions / 360° ;

A. 3 dimensions
