Paper 1 Short Answer and Essay

**May/June 2019**

MARK SCHEME

Maximum Mark: 40

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the May/June 2019 series for most Cambridge IGCSE™, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

---

This document consists of **14** printed pages.

### Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

#### GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

#### GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

#### GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

#### GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

#### GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

#### GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

**9609 Paper 1 Specific Marking Principles**

Marks are awarded for each answer when the following Assessment Objectives (AO) are met. The mark scheme for each answer indicates when and how each AO can be met.

**AO1 – Demonstrate knowledge and understanding of business concepts.**

The focus in Section A of the Examination Paper is on this first AO.

- (a) Questions 1, 2, and 4 will meet this AO using definitions and explanations of business concepts.
- (b) Question 3 provides an opportunity for the application and a more developed explanation of a business concept. The 4–5-mark level specifically provides for this more developed explanation.

In Section B of the Examination Paper

- (a) Questions 5, 6, and 7 still require supporting **Knowledge and Understanding (AO1)**, but there is now a focus on **Application (AO2)**, **Analysis (AO3)**, and **Evaluation (AO4)**. These skills are set out below:

**AO2 – Apply knowledge and understanding of business concepts to general and specific situations and contexts.**

- (a) Where a specific business or context is named in the question then the candidate is required to relate answers specifically to this business or context.
- (b) It is not sufficient to merely repeat the name of the business or the context.

**AO3 – Analyse business problems, issues, situations and contexts, through a discussion and interpretation of evidence, debate, theory, impact and consequence, to produce reasoned and coherent arguments.**

- (a) Level 3 answers will likely use terms such as – because, leads to, therefore, so that, as a result, consequently – thereby showing analytical development for AO3.

**AO4 – Limited Evaluation is given**

- (a) When an attempt is made, (probably in a concluding section of an answer), to address and comment on the value and validity of the previous analysis.
- (b) These comments may be quite brief and be more opinionated than reasoned.
- (c) A mere concluding summary of preceding analysis is, however, not evaluation.

**AO4 – Evaluation occurs**

- (a) When an answer comments on the validity/significance of previous analysis in an evidence based and reasoned way.
- (b) This often leads to the presentation of appropriate substantiated judgements, decisions, or recommendations.

Question	Answer	Marks
1(a)	<p><b>Define the term ‘competitive pricing strategy’.</b></p> <p>A pricing strategy / method of pricing where a price for a product or service is set / made (1)  Based upon the price set by competitors (1).  A business offers to match the price of competitors (1).  Set a price slightly below competitors (1).  An example Mcdonalds v Burger King (1).</p> <p>Sound definition 2 of the factors listed above (2 marks)  Partial definition 1 of the factors listed above (1 mark)  No creditable content. (0 marks)</p>	2
1(b)	<p><b>Briefly explain why a business might use a price skimming strategy.</b></p> <p><i>Answers could include:</i></p> <ul style="list-style-type: none"> <li>• Price skimming is the setting of a high price for a product that is considered to be unique or having special features and thus has a low price elasticity of demand (inelastic).</li> <li>• May be a new product – aim is to maximise short-term profits before competitors enter the market.</li> <li>• Create customer perception of high quality.</li> <li>• Customers can equate quality with high price.</li> <li>• Producers of luxury goods/designer goods focus on status conscious customers who will pay high prices.</li> <li>• Recoup high costs involved in production (e.g. pharmaceutical companies).</li> <li>• To maximise profit.</li> <li>• To exploit a product with a low elasticity of demand.</li> </ul> <p>Sound explanation of the advantages of a business using a price skimming strategy. (3 marks)  Partial / limited explanation of the advantages of a business using a price skimming strategy. (2 marks)  Explanation / reference to a price skimming strategy. (1 mark)  No creditable content (0 marks)</p>	3

Question	Answer	Marks
2(a)	<p><b>Define the term ‘retained earnings’.</b></p> <p>The profits made by a business that are not distributed to shareholders (1).          Profits left after all deductions have been made / dividends have been paid (1).          Profits re-invested in the business (1).          Profits kept as a reserve (1).          A source of internal finance (1).</p> <p>Sound definition 2 of the factors listed above (2 marks)          Partial definition 1 of the factors listed above (1 mark)          No creditable content. (0 marks)</p>	2
2(b)	<p><b>Briefly explain the distinction between short-term and long-term sources of business finance.</b></p> <p><i>Answers could include:</i></p> <p><b>Short-term financing.</b></p> <ul style="list-style-type: none"> <li>• Usually refers to financing that spans a period of less than a year but could extend according to the types of loan/debt being considered.</li> <li>• Loan requiring a short repayment period, probably at a lower interest.</li> <li>• Risk is lower so more accessible to smaller businesses.</li> <li>• Include short-term loans, overdrafts, short-term leases, accounts payable.</li> <li>• Used for day to day financial requirements / to cover any shortfall between income and expenditure.</li> </ul> <p><b>Long-term financing</b></p> <ul style="list-style-type: none"> <li>• Spans a longer period of time, from over 1 year – 30 years.</li> <li>• Long-term financing is riskier, so banks often require collateral to prevent default on repayment.</li> <li>• Includes share issue, bonds, long-term bank loans, long-term leases, retained earnings, mortgages.</li> <li>• Restricted to large businesses, established businesses that can supply collateral.</li> <li>• Used for longer term/larger investment projects.</li> </ul> <p><i>Answers may make reference to features of short-term and long-term sources of business finance such as those listed above. Accurate references to these features are acceptable as explanations of the distinction between these two sources of business finance.</i></p> <p>Sound explanation of the features of short-term and long-term sources of business finance. (3 marks)          Partial / limited of the features of short-term and long-term sources of business finance. (2 marks)          Explanation / reference to sources of business finance. (1 mark)          No creditable content (0 marks)</p>	3

Question	Answer	Marks
3	<p><b>Explain factors that could influence the scale of operations of a business.</b></p> <p><i>Answers could include:</i></p> <ul style="list-style-type: none"> <li>• The size of the operations of a business from small / limited to large / extensive.</li> <li>• The objectives of the owners of a business – there may be reluctance to expand a small business.</li> <li>• Capital available may be limited – growth will be restrained.</li> <li>• The size of the market that a business operates in may be relatively small – or a deliberate choice for a niche market.</li> <li>• The extent of competition – intensive competition may limit scale of operations.</li> <li>• Possibility / scope for economies of scale – may offer opportunities for expansion.</li> <li>• State of the external economy may affect scale.</li> <li>• Legal restrictions may affect opportunities to expand.</li> <li>• Size of labour resource available.</li> <li>• Nature of product – less standardised products such as handicrafts may mean small scale business.</li> <li>• Nature of demand – if demand for a product is high the size of a business may well increase.</li> <li>• The ability of the business owner – if motivated and skilful will seek to build a bigger business.</li> </ul> <p>Effective explanation of factors that could influence the scale of operations of a business. (4–5 marks)</p> <p>Explanation of factors that could influence the scale of operations of a business. (2–3 marks)</p> <p>Description / information of scale of operations. (1 mark)</p> <p>No creditable content. (0 marks)</p> <p><b>NOTE</b></p> <p><i>Some answers may interpret this question as the internal factors that could influence the operational capacity of a business, e.g. an interruption in the supply chain might mean a lack of raw materials to support a productive process. Consequently, the scale of production reduces.</i></p> <p><i>This interpretation of the question is acceptable and should be rewarded.</i></p>	5

Question	Answer	Marks
4(a)	<p><b>Define the term ‘private limited company’.</b></p> <p>A business owned by private shareholders (1).  A small to medium-sized company (1).  Owned by shareholders (1).  Shareholders have limited liability (1).  Shareholders are often members of the same family (1).  The business is a separate legal entity (1).  Cannot sell shares to general public / stock exchange (1).</p> <p>Sound definition 2 of the factors listed above (2 marks)  Partial definition 1 of the factors listed above (1 mark)  No creditable content. (0 marks)</p>	2
4(b)	<p><b>Briefly explain <u>two</u> possible <u>disadvantages</u> to a sole trader of changing to a private limited company.</b></p> <p><i>Answers could include:</i></p> <ul style="list-style-type: none"> <li>• Loss of 100% ownership of the business.</li> <li>• Loss of control of the business (might not be a majority shareholder).</li> <li>• Cost of changing to a private limited company.</li> <li>• May lose influence over key decisions such as distribution of profit, future growth policies.</li> <li>• Needs to produce end of year accounts – more transparency of financial affairs.</li> <li>• Information disclosure could make a business competitively disadvantaged.</li> </ul> <p>Sound explanation of <b>two</b> disadvantages to a sole trader of changing to a private limited company. (3 marks)  Sound explanation of <b>one</b> disadvantage or partial explanation of <b>two</b> disadvantages to a sole trader of changing to a private limited company. (2 marks)  Partial explanation of <b>one</b> disadvantage or a list of <b>two</b> disadvantages to a sole trader of changing to a private limited company. (1 mark)  No creditable content. (0 marks)</p>	3

Question	Answer	Marks																		
5(a)	<p><b>Analyse the difference between autocratic and laissez-faire leadership.</b></p> <table border="1"> <thead> <tr> <th>Level</th><th>Description</th><th>Marks</th></tr> </thead> <tbody> <tr> <td>4</td><td>Good analysis of the difference between autocratic and laissez-faire leadership.</td><td>7–8</td></tr> <tr> <td>3</td><td>Some analysis of the difference between autocratic and laissez-faire leadership.</td><td>5–6</td></tr> <tr> <td>2</td><td>Some application of the difference between autocratic and laissez-faire leadership.</td><td>3–4</td></tr> <tr> <td>1</td><td>Some understanding of autocratic/laissez-faire leadership.</td><td>1–2</td></tr> <tr> <td>0</td><td>No creditable content.</td><td>0</td></tr> </tbody> </table> <p><i>Answers could include:</i></p> <ul style="list-style-type: none"> <li>• An <b>autocratic</b> leader has complete command over employees.</li> <li>• Leader takes all major decisions.</li> <li>• Views / ideas / suggestions are discouraged.</li> <li>• Criticism not allowed.</li> <li>• Can lead to speedy decision making and high productivity.</li> <li>• Can lead to poor employee motivation and high labour turnover.</li> <li>• Works best with unskilled, monotonous, routine work where leader is best performer.</li> <li>• A <b>laissez-faire</b> leader is one who trusts employees / team to perform the job themselves.</li> <li>• Arm's length management.</li> <li>• Views are shared and suggestions welcomed.</li> <li>• Works best when employees are highly skilled, loyal, and experienced.</li> <li>• Works best with employees who are subject area specialists – capable of accepting responsibility.</li> <li>• Should not be used to mask managerial incompetence.</li> </ul>	Level	Description	Marks	4	Good analysis of the difference between autocratic and laissez-faire leadership.	7–8	3	Some analysis of the difference between autocratic and laissez-faire leadership.	5–6	2	Some application of the difference between autocratic and laissez-faire leadership.	3–4	1	Some understanding of autocratic/laissez-faire leadership.	1–2	0	No creditable content.	0	8
