ACCOUNTING 9706/32

Paper 3 A Level Structured Questions

March 2019

MARK SCHEME
Maximum Mark: 150

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the March 2019 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always whole marks (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

© UCLES 2019 Page 2 of 22

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Question	stion Answer					
1(a)	Income and expenditure account for year	ended 30 June 2	018		7	
	Subscription fee (\$544 000 + (\$3400 + \$8200) (1) – (\$7000 + \$2400) (1)) Restaurant profit (\$12 600 – \$3300)	\$	\$ 546 200 9 300	(1)		
	Depreciation clubhouse $$300000 \times 4\%$ Depreciation equipment $($140000 - $64000) \times 15\%$	12 000 11 400	555 500	(1) (1)		
	Club staff salaries	192 000 326 000		(1)		
	Loan interest $$10000 \times 10\% \times \frac{6}{12}$	500	541 900	(1)		
	Surplus of income over expenditure		13 600	(1) OF		

© UCLES 2019 Page 4 of 22

Question	Answer	Marks
1(b)	Responses could include:	2
	receipts and payments account is a summary of cash book while income and expenditure account is of same nature as an income statement; (1)	
	receipts and payments account applies cash basis accounting while income and expenditure account applies accrual accounting; (1)	
	receipts and payments account records only cash transactions while income and expenditure also records non-cash transactions such as depreciation; (1)	
	receipts and payments account looks for the increase / decrease in cash during the year while income and expenditure account looks for the surplus / deficit; (1)	
	the opening balance of receipts and payments account represents cash balance at bank and in hand while there is no opening balance for income and expenditure account. (1)	
	Accept other valid points. (1 mark) × 2 differences

	Subscriptions in advance		2 400 (1)				
	Accrued wages		3 300 }				
	Accrued interest		500 § (1) OF				
				18 300	-		
	Total accumulated fund and				_		
	liabilities			235 900	_		

© UCLES 2019 Page 6 of 22

Question	Answer	Marks
1(d)	Restaurant profit 9 300 Increase in inventory (23 400 – 15 700) (7 700) (1) Decrease in trade payables (12 100 – 13 900) (1 800) (1) Increase in accrued wages 3 300 (1) Net cash surplus from restaurant 3 100 (1) OF	4
1(e)	Responses could include: less paper work and procedures (than bank loan) quicker to obtain loan (than bank loan) may not require collateral (vs. bank loan) however: still may have to pay interest still may have to repay the loan already has a loan from a member \$10 000; members may refuse to lend more Accept other valid points. (2 marks) for explaining one reason for obtaining members' loan and (2 marks) for explaining one reason against members' loan. (1 mark) for decision.	5

© UCLES 2019 Page 7 of 22

Question	Answer	Marks
2(a)	Trade receivables turnover = $\frac{137\ 500}{994\ 000} \times 365 = 51$ days (1)	5
	Inventory turnover ratio = $\frac{220\ 000}{640\ 000}$ (1) × 365 = 126 days (1) OF	
	Trade payables turnover = $\frac{52100}{680000} \times 365 = 28 \text{ days (1)}$	
	Working capital cycle = 51 + 126 – 28 = 149 days (1) OF	
2(b)	The company is receiving payments and making payments within the agreed period. (1)	5
	Payments are being made before receipt (1) so there will be an adverse effect on cash flow. (1)	
	Inventory turnover ratio has worsened from the previous year. (1) OF	
	Liquidity could be improved by reducing receivable days and inventory turnover ratio whilst increasing payables days. (1)	
	Accept other valid points.	
2(c)	The ratio has worsened from the previous year (1) because a greater proportion of the revenue is being used to fund the working capital cycle. (1)	6
	The increase in the closing inventory has contributed to this (1) and indicates greater inefficiency. (1)	
	The fall in trade payables (1) and rise in trade receivables (1) have also had the same effect.	
	Accept other valid points.	

© UCLES 2019 Page 8 of 22

Question	Answer	Marks
2(d)	The gearing of F Limited is lower which indicates less risk (1) although both are low geared companies. (1)	9
	Earnings per share of C Limited is higher which is better (1) indicating greater profits for each share held. (1)	
	Dividend cover of C Limited is higher which is better (1) indicating that there is a greater proportion of profits available for the payment of dividends. (1)	
	Dividend per share of C Limited is higher which is better (1) showing that a higher dividend is paid for each share owned. (1)	
	From the limited information available, I would advise Blair to invest in C Limited. (1)	
	Accept other valid points.	
	Award 1 mark for decision and max 2 marks for each ratio.	

Question		Answer	Marks
3(a)	The closing inventory is valued at:	\$	4
	unsold containers 6 × 7 200	43 200 (1)	
	shipping expenses $\frac{1}{5} \times 11600$	2 320 (1)	
	customs charges $\frac{1}{5} \times 7800$	1 560 (1)	
	closing inventory valuation.	47 080 (1) OF

Question	Answer	Marks
4(d)	The directors should continue with the statement of cash flows. (1)	5
	A statement of cash flows is a requirement of IAS 1. (1) It shows how cash has been acquired and applied. (1) It is a link between two statements of financial position. (1) A cash budget is a management tool. (1) It deals with the future, not historical data. (1) If published, it could be of use to competitors. (1) Accept other valid points. (1) for decision + (Max 2) for comments on statement of cash flows at (1) mark each and (Max 2) for comments on cash budgets.	

Question				Answer	Marks
5(a)	Direct materials Direct labour Fixed overheads Cost per unit Fixed overhead per unit	Premier \$ 80 90 36 206 t \$480 000 40 000 =	24 124	} }(1) for all (1) for both (1) OF for both	3
5(b)	Cost driver is the factor	that causes	the change (1)	in the cost of an activity. (1)	2

© UCLES 2019 Page 14 of 22

Question	Answer	Marks
5(c)	Advantages	5
	ABC provides more reliable information for product costing, i.e. it is based on activity cost driver. (1)	
	ABC facilitates pricing decision. (1)	
	Disadvantages	
	It is time consuming to implement ABC. (1)	
	Determining the cost driver may be difficult. (1)	
	Measuring the quantity of each cost driver consumed may be difficult. (1)	
	It is costly because it may be necessary to employ a specialist to implement the ABC system. (1)	
	Accept other valid points.	
	Max 2 for advantages, Max 3 for disadvantages

Question	Answer	Marks
6(b)	Material price variance – adverse	4
	Unexpected price increase.	
	Loss of previous discount from supplier.	
	Better quality materials purchased.	
	(1 mark) × any 1 reason OF	
	Material usage variance – favourable	
	Less wastage due to better quality material.	
	Less wastage due to better skilled/experienced workforce.	
	(1 mark) × any 1 reason OF	
	Labour rate – favourable	
	A planned pay increase was not given.	
	Use of lower skilled labour.	
	Greater supply of labour.	
	(1 mark) × any 1 reason OF	

© UCLES 2019 Page 19 of 22

Question	Answer	Marks
6(b)	Labour efficiency - adverse	
	Use of lower quality material.	
	Use of lower skilled labour.	
	More idle time than budgeted.	
	Poor supervision	
	(1 mark) × any 1 reason OF Accept other valid points.	
6(c)(i)	Fixed overhead expenditure	2
	standard 6500 units × 1.5 hours × \$5 48 750 actual 52 100 \$3 350 (1) A (1)	
6(c)(ii)	Fixed overhead volume	2
	standard units 6 500 actual units 5 900 600 units	
	Standard OAR 1.5 hours × \$5 × \$7.50	

© UCLES 2019 Page 20 of 22

Question	Answer	Marks
6(d)	The fixed overhead volume variance is the difference between the actual and budgeted production and can be broken down further (to show what caused this difference) into the fixed overhead efficiency (1) and fixed overhead capacity. (1)	5
	If Jack calculated the fixed overhead efficiency he would know how much of the volume variance was due to the efficiency of his workforce. (1) As the volume variance was adverse for Jack this could mean the workforce worked more slowly than expected (1) due to lack of skills, poor material quality. (1)	
	If Jack calculated the fixed overhead capacity he would know how much of the <i>volume</i> variance was due to number of hours worked. (1) As the <i>volume</i> variance was adverse for Jack this could mean the workforce worked fewer hours than expected (1) due to strikes, machine breakdown or shortage of labour. (1)	
	Accept other valid points.	
	Max 5	

© UCLES 2019 Page 21 of 22

Question	Answer	Marks
6(e)	Advantages	4
	Acting as a control device in variance analysis (1)	
	Assisting in budget setting (1)	
	Evaluating managers performance (1)	
	Predicting future costs to aid decision making (1)	
	Providing targets to motivate staff (1)	
	Suggesting ways to improve efficiency (1)	
	Enabling more accurate inventory valuation (1)	
	Disadvantages	
	Time consuming to collect data (1)	
	Standards based on estimates (1)	
	Unrealistic standards can demotivate staff (1)	
	Factors causing variances are outside his control (1)	
	Max 2 marks for advantages and Max 2 marks for disadvantages Accept other valid points.
