UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS International General Certificate of Secondary Education

MARK SCHEME for the May/June 2007 question paper

0452 ACCOUNTING

0452/03

Paper 3, maximum raw mark 100

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2007 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

(h) The accounts may be for 1 year only and not show trends

The accounts may not be for a typical year

The financial year may end at a different point in the trading cycle

The businesses may operate different accounting policies e.g. depreciation

The accounts do not show non-monetary items but these are important in the success of a business

It is not always possible to obtain all the information about a business in order to make a true comparison

Or other suitable points

Any 3 correct points [1] each
