Paper 1

**May/June 2016**

MARK SCHEME

Maximum Mark: 120

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2016 series for most Cambridge IGCSE<sup>®</sup>, Cambridge International A and AS Level components and some Cambridge O Level components.

[7]

(f) Item – trade receivables (1)

Section – current assets (1)

[2]

(g) For early payment (1)

[1]

[Total: 22]

Page 5	Mark Scheme	Syllabus	Paper
	Cambridge IGCSE – May/June 2016	0452	11

4 (a)

Name of accounting principle or policy	Explanation
<i>Duality</i>	<i>Every transaction has a two-fold aspect</i>
Prudence (1)	Profits should not be overstated
Money measurement (1)	Financial statements only include items which can be expressed in monetary terms
Going concern	Accounting assumes that a business will continue to operate indefinitely (1)
Business entity	A distinction is made between the financial transactions of a business and those of its owner(s) (1)
Reliability (1)	Accounting information should be free from error and bias
Consistency	The same accounting treatment should be applied to similar items at all times (1)

[6]

- (b) different accounting policies  
different locations  
different capital structures  
different type of business  
different type of goods sold  
different year end  
non-monetary items  
different size of business

Accept other reasonable answer

Any two for (1) mark each

[2]

(c)

User	Reason
Bank manager	To make decision regarding loan or overdraft (1)
Credit supplier	To ensure credit worthiness of customer (1) To establish credit limit (1)
Investor	To see the return on his investment (1)

Other reasonable answers accepted.
