CAMBRIDGE INTERNATIONAL EXAMINATIONS

Cambridge International General Certificate of Secondary Education

MARK SCHEME for the October/November 2015 series

0452 ACCOUNTING

0452/13 Paper 1, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2015 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

'/								_
	General Store Limited Statement of Changes in Equity for the year ended 31 December 2014							
Details		Share capital	General reserve	Retained earnings		Total		
		\$	\$	\$		\$		
	On 1 January 2014	100 000	20 000	4 810		124 810		
	Profit for the year			15 270		15 270		(1of)
	Dividend paid			(10 000)		(10 000)		(1)
	Transfer to general reserve		5 000	(5 000)		_		(1)
	On 31 December 2014	100 000	25 000	5 080	(1of)	130 080	(1of)	

(e) $30\ 270/227\ 000\ (1of) \times 100 = 13.33\%\ (1of)$

OR

$$15\ 270\ /\ 227\ 000\ (1of) \times 100 = 6.73\%\ (1of)$$

(f) Neighbouring shop may sell different mix of goods (1) with a higher gross profit margin (1). Neighbouring shop may have different policies (1) for instance for depreciation (1). Illustration with figures e.g. if depreciation rate was 10% then net profit margin would be 3.8% higher (1).

Neighbouring shop controls expenses better (1).

Neighbouring shop may own premises and avoid rent payment (1). Illustration with figures e.g. rent accounts for 10.57% of revenue (1).

If using profit after interest also allow

Neighbouring shop may have more equity/capital (1) and not have the interest cost (1). Illustration with figures e.g. interest amounts to 6.6% of sales (1). [Max 6]

(g) Increase selling prices/increase gross profit margin/reduce cost of sales Reduce expenses/rent cheaper premises Find cheaper lenders of finance to reduce interest charges Review depreciation rate – do fixtures only have a life of 3 to 4 years Turn overdrafts and short term loans into long term loans to reduce interest rate Any 3 for (1) mark each.
