MARK SCHEME for the May/June 2010 question paper

for the guidance of teachers

0470 HISTORY

0470/43

Paper 43 (Alternative to Coursework), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

- Level 3 Makes valid inferences with reference to the source e.g. They felt confident that they would not have to mobilise reserves; felt that the Arab states would not be able to co-operate against them etc. (5–6)
- (ii) Level 1 Agrees OR disagrees, unsupported from the source. (1–2)
 - Level 2 Agrees OR disagrees, supported from the source e.g.
 - Yes Israel could be seen as the military victor; the issue of the state of Israel was still of importance to USA and UNO; both USA and UNO positions seemed to advance which implies influence for peace and existence of the Israeli state. Sadat now turning to USA, Israel's foremost supporter etc.
 - No Egypt, Syria had a political victory; Israel had to withdraw from Sinai; Egypt's third Army rescued and still intact etc. (3–5)
 - Level 3 Agrees AND disagrees, supported from the source. Addresses the issue of 'How far?' (6–7)
- (iii) Level 1 Useful/not useful Choice made on the basis that one is more detailed/gives more information, but does not specify what information. (1)
 - Level 2 Useful/not useful One is from an Israeli newspaper, the other is from a British history book so they could both be biased/unreliable. (2)
 - Level 3 Choice made on the nature or amount of information given. Must specify what information. (3–5)
 - Level 4 Choice made on the grounds of reliability. Discussion of utility must be made on valid evaluation of source(s) in context. Include at this Level answers that cross-reference between A and B to show reliability. 6 marks for one source, 7 marks for both. (6–7)

- (b) (i) Level 1 One mark for each valid aspect to a maximum of two e.g. He was Minister for Defence in the Israeli government. His reputation was harmed by the ill-preparedness of the Israeli forces to counter the Egyptian and Syrian attacks. Accepted he had to fight on two fronts. Dropped from Rabin's cabinet in 1974 etc. (1–2)
 - (ii) Level 1 Identifies use of oil as a weapon. Blackmail? (1–2)
 - Level 2 Develops use of oil as a weapon. Award an extra mark for each aspect that is described in additional detail e.g. USA particularly influenced by the cutting of oil production by Arab states and the banning of exports to USA and Holland. Showed that the USA and USSR would suffer consequences for supporting the client states. The superpower leaders worked hard for a cease fire, as did the Security Council at UNO. (2–4)
 - (iii) Level 1 Single reason. One for the reason, one for the explanation. (1–2)
 - Level 2 Multiple reasons. One for each reason, one for each reason explained e.g. Tension – PLO pressure; hijacked airliners blown up at Amman 1970; Terrorist attack at Munich Olympics. Sadat was convinced he could not win a war against Israel so wanted USA support for a negotiated settlement. After terrorist attacks world opinion turned against the Arab states; so, Sadat turned to Syria to mount a joint attack to force USA to intervene and create a settlement. Egyptians more confident as they had USSR support, modern Soviet weapons and Soviet training for its troops. One country only – max 4 marks. (2–6)
 - (iv) Level 1 Simple assertions. No, they still all hated one another.
 - Level 2 Explanation of change OR lack of change, single factor given e.g.
 - Cha. Some glimmer of peace; Egyptian and Israeli leaders came together but not in the same room in Geneva. Israelis agreed to move back from Suez Canal (closed since 1957) enabling Egypt to repair and re-open the Canal BUT not to Israeli ships). Oil had been shown to be a good weapon and affected USA especially. OPEC's success, and mindful that resources were not unlimited, caused it to raise prices –caused a world recession in 1979.
 - Lack The Palestinian problem had not been resolved. Most Arab states still hated the idea of the Israeli state. Were Jordan and latterly Egypt sincere about wanting an accommodation? (2)
 - Level 3 Explanation of change or lack of change with multiple factors given. Allow single factors with multiple reasons.
 - OR Undeveloped suggestions on BOTH sides of the argument (annotate BBB Balanced but Brief). (3–5)
 - Level 4 Answers that offer a balanced argument. BOTH sides of change AND lack of change must be addressed. (6–8)

- Level 3 Makes valid inferences with reference to the source e.g. Conditions differ from place to place; there appears to be no regulations for any of the towns mentioned; although there are some good sewers in Bury, even there the conditions are as bad as Liverpool and Bradford in places etc. (5–6)
- (ii) Level 1 Agrees OR disagrees, unsupported from the source. (1–2)
 - Level 2 Agrees OR disagrees, supported from the source e.g.
 - Yes Illustrated London News sufficiently interested to report the inquest; medical officer appointed and an inquest held indicates some official concern at least etc.
 - No Bad conditions for years with no improvement; moneyed interests at play; local authorities making no real effort etc. (3–5)
 - Level 3 Agrees AND disagrees, supported from the source. Addresses the issue of 'How far?' (6–7)
- (iii) Level 1 Useful/not useful Choice made on the basis that one is more detailed/gives more information, but does not specify what information. (1)
