MARK SCHEME for the May/June 2013 series

0470 HISTORY

0470/12

Paper 1, maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

1 Use of the Mark Scheme

- 1.1 It is not possible to cover every possible type of response within a levels of response mark scheme and examiners are expected to use their professional judgement at all times in ensuring that responses are placed in the correct levels and given an appropriate mark within that level.
- 1.2 Marking must be positive. Marks must not be deducted for inaccurate or irrelevant answers. Half-marks must not be used.
- 1.3 The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response.
- 1.4 Be consistent from script to script and from batch to batch.
- 1.5 Indicate that all answers have been seen.
- 1.6 Do not transfer marks from one part of a question to another.
- 1.7 If a candidate reaches a particular level s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- 1.8 Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- 1.9 **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.**
- 1.10 Where a band of marks is indicated for a level these marks should be used with reference to the development of the answer within that level.

2. Marking

- 2.1 All marking should be in red.
- 2.2 The level, and mark awarded for each part question, **MUST** be shown clearly in the margin of the script towards the end of an answer, e.g. L3/8.
- 2.3 At the end of each question the total mark achieved by the candidate for that question **MUST** be indicated in a circle.
- 2.4 The total mark for each question should be transferred to the front page of the script. The marks for the three questions should be totalled and indicated. The final total for the script should then be circled.
- 2.5 It is not necessary to tick the body of an answer and examiners should refrain from doing so.
- 2.6 Examiners must indicate, in the body of the response, where a level has been achieved and, where appropriate, marks are gained.

3 Assessment Objectives

- 3.1 The Assessment Objectives being tested in each part of a question are:
 - (a) recall, description
 - (b) recall, explanation
 - (c) recall, explanation and analysis.

Level 3 Explanation of Bondelswarts OR Rehoboths [3–5]

e.g. ‘The South Africans seemed to be continuing the colonial oppression started by the Germans. There was an uprising by the Bondelswarts when a tax was placed on dogs which they used for hunting. The intention of the tax was to make them even poorer so they would be forced to work for the white farmers.’

OR

e.g. ‘In 1923, the Rehoboth community rose up in protest. South African rule began to threaten the special rights which the Rehoboths had kept after their Treaty with the Germans in 1885. 'The charter of the PLO proclaimed: 'Armed struggle is the only way to liberate Palestine'.
'Arafat and the PLO realised that Palestinians could not rely on powers such as Egypt, Syria and Jordan to defeat the Israelis in battle. With such a heavy defeat in the Six Day War, it would be a long time before countries would be willing to put their forces up against the Israelis. The Palestinians were now on their own if they wanted to liberate their homeland. This meant a change in tactics.'
'Arafat had hoped to be able to fight a successful guerrilla war against Israel but was not successful as the Israeli forces were too strong. The attacks against the military were continued but surprise attacks against Israeli civilians and civilian targets were carried out. These attacks were condemned as terrorism.'

OR

e.g. 'The violent activities of Fatah in 1967 and the PLO from 1969 turned international opinion against the cause. The PFLP hijacked planes, bombed sites and took hostages.
