MARK SCHEME

Maximum Mark: 50

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2021 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of **15** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

	How far do these two sources agree? Explain your answer using details of the sources.	
	Level 5 7	
	Compares big messages – Source A is not criticising the League, while Source B is – must be supported from source.	
	Level 4 5–6	
	Agreement and disagreement of detail or sub-messages	3–4
	Level 3 3–4	
	Agreement or disagreement of detail or sub-messages	
	Agreements include: Japan had a right to be there There was support/sympathy for Japan US did not support intervention The League did nothing/not much/failed Britain did not want to act The Japanese invasion caused a crisis.	
	Disagreements include: Source A doesn't see it as an invasion, Source B does OR Source A sees Japan's actions as legal, Source B says illegal. Source A says League could not do anything, Source B says League should have done more. Source A says Britain didn't act because its military is weak, Source B says it didn't act because Japan was a friend. Source A says information about events in China were slow to get through, Source B says news arrived quickly.	
	Level 2 2	1

2	Study Source C.	8
	What is the message of the cartoonist? Explain your answer using details of the source and your knowledge.	
	Level 5 7–8 Explains point of view of cartoonist – criticising Japan/Japan is wrong for invading or breaking international treaties. Must be supported from source, otherwise Level 3	
	Level 4 6 Explains big message of the source – Japan is breaking international treaties by invading Manchuria/China OR something needed to be done about Japan, it needed to be stopped	
	Level 3 3–5 Explains sub-message (3 marks if no support, more than one unsupported = 4 marks, one supported = 4 marks, one of each = 5 marks) Sub-messages International treaties/agreements are being broken/are weak Japan is being aggressive/Japan is powerful China is being attacked The international treaties/agreements were useless Japan is ruthless Japan cannot be trusted Japan is acting illegally	
	Level 2 2 Plausible misinterpretations	
	Level 1 1 Surface description	
	Level 0 0 No evidence submitted, or response does not address the question.	

Question	Answer	Marks
3	Study Sources D and E.	8
	How far does Source D mean that Source E cannot be trusted? Explain your answer using details of the sources and your knowledge.	
	Level 5 7–8 Answers based on the disagreements between Source D and Source E and evaluation of at least one of them to support conclusion about whether Source E can be trusted	
	Level 4 5–6 Answers based on the disagreements between Source D and Source E Source D claims that Japan has been successful in Manchuria and is creating order and bringing stability to an area where there was disorder – an ‘oasis in a desert of Chinese misrule’. The invasion is therefore justified. Source E, on the other hand, criticises the Japanese for using ‘threats and force’. It argues that violence should not govern relations between states and that the stability of the world is being threatened by the invasion. It is not justified.	
	Level 3 3–4 Answers that evaluate Source E but fail to make valid use of Source D	
	Level 2 2 Answers based on undeveloped use of provenance, e.g., Source D disagrees with Source E but they are both from the same newspaper, therefore it cannot be trusted or used to prove that Source E cannot be trusted. They are from different dates, events might have changed and so there is no reason why the disagreements between them mean that Source D shows that Source E cannot be trusted.	
	Level 1 1 Unsupported assertions.	
	Level 0 0 No evidence submitted, or response does not address the question.

	Level 4 5–6	
	Contextual answers of how source is not useful because it is biased or because of its purpose OR Cross-references to argue it is useful because it was like this (probably from Background Information or Source D)	
	Level 3 3–4	
	Answers based on impressions given of Japanese happiness in Manchuria, showing Japan was succeeding there.	2
	Level 2 2	
	Answers based on undeveloped use of provenance OR Uses surface detail, e.g., useful for how they were dressed	
	Level 1 1	
	Unsupported assertions/answers failing to address useful/answers based on misinterpretations	0
	Level 0 0	
	No evidence submitted, or response does not address the question.
