Paper 2 Reading Passages (Extended)

**October/November 2017**

MARK SCHEME

Maximum Mark: 50

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2017 series for most Cambridge IGCSE<sup>®</sup>, Cambridge International A and AS Level components and some Cambridge O Level components.

**Note:** All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

| 1        | <p><b>A3: Advice on additional measures that need to be taken to ensure astronauts' safety</b></p> <ul style="list-style-type: none"> <li>• <b>do not send astronauts out alone / do not send out unmonitored / safety crew on standby</b></li> <li>• <b>astronaut's responsibility to check</b> (det. lockers) [dev. have to sign off / fill in a form/ will not be authorised]</li> <li>• <b>maintenance / repair / upgrade / replace suit(s)</b></li> <li>• <b>ensure protocols are followed</b></li> <li>• <b>improve safety harness</b> [dev. fit correctly / review use of / replace]</li> <li>• <b>(re)train astronauts</b> (det. wrecked microphone) [dev. stay calm in an emergency]</li> <li>• <b>improve technology</b> (det. no need to trigger emergency wavelengths) [dev. automate alarms, make microphone more durable; automatic sunshield as default]</li> </ul> <p>The discriminator is the development of the writer's opinions and predictions for the future, as this requires candidates to draw inferences. Ideas and opinions must be derived from the passage, developing the implications.</p> |       |

**Marking Criteria for Question 1****Table A, Reading:**

Use the following table to give a mark out of 15 for Reading.

|                                |   |
|--------------------------------|---|
| <b>Band 1:</b><br><b>13–15</b> | The response reveals a <b>thorough</b> reading of the passage. A wide range of ideas is applied. There is sustained use of supporting detail, which is well integrated into the response, contributing to a strong sense of purpose and approach. Developed ideas are well related to the passage. All three bullets are well covered.              |
| <b>Band 2:</b><br><b>10–12</b> | There is evidence of a <b>competent</b> reading of the passage. Some ideas are developed, but the ability to sustain them may not be consistent. There is frequent supporting detail. The response answers all three bullets, though perhaps not equally well.  |
| <b>Band 3:</b><br><b>7–9</b>   | The passage has been read <b>reasonably well</b> , but the response may not reflect the range or complexity of ideas in the original. There may be some mechanical use of the passage. Supporting detail is used occasionally. Opportunities for development are rarely taken and ideas are simply expressed. There is uneven focus on the bullets. |
| <b>Band 4:</b><br><b>4–6</b>   | Some brief, straightforward reference to the passage is made. There is some evidence of <b>general understanding</b> of the main ideas, although the response may be thin or in places lack focus on the passage or the question. One of the bullets may not be addressed.  |
| <b>Band 5:</b><br><b>1–3</b>   | The response is either very general, with little reference to the passage or the question, or a <b>reproduction</b> of sections of the original. Content is insubstantial, or there is little realisation of the need to modify material from the passage.  |
| <b>Band 6:</b><br><b>0</b>     | There is very little or no relevance to the question or to the passage, or the response copies unselectively or directly from the passage.  |

**Table B, Writing: Structure and order, style of language**  
Use the following table to give a mark out of 5 for Writing.

|                           |  |
|---------------------------|--|
| <b>Band 1</b><br><b>5</b> | The language of the response sounds convincing and consistently appropriate. Ideas are firmly expressed in a wide range of effective and / or interesting language. Structure and sequence are sound throughout.             |
| <b>Band 2</b><br><b>4</b> | Language is mostly fluent and there is clarity of expression. There is a sufficient range of vocabulary to express ideas with subtlety and precision. The response is mainly well structures and well sequenced.             |
| <b>Band 3</b><br><b>3</b> | Language is clear but comparatively plain and / or factual, expressing little opinion. Ideas are rarely extended, but explanations are adequate. Some sections are quite well sequenced but there may be flaws in structure. |
| <b>Band 4</b><br><b>2</b> | There may be some awkwardness of expression and some inconsistency of style. Language is too limited to express shades of meaning. There is structural weakness and there may be some copying from the passage.              |
| <b>Band 5</b><br><b>1</b> | Expression and structure lacks clarity. Language is weak and undeveloped. There is very little attempt to explain ideas. There may be frequent copying from the original.  |
| <b>Band 6</b><br><b>0</b> | The response cannot be understood.   |

| Question | Answer  | Marks     |
|----------|---|-----------|
| 2        | <p>This question tests Reading Objective R4 (10 marks):</p> <p><b>R4</b> demonstrate understanding of how writers achieve effects</p> <div style="border: 1px solid black; padding: 10px;"> <p><b>Re-read the descriptions of:</b></p> <p><b>(a) the space station <u>and</u> what Astronaut A saw in paragraph 1, beginning ‘When Satellite Control called me...’</b></p> <p><b>(b) the spacesuit in paragraph 4, beginning ‘Hastily, I clambered into my spacesuit...’.</b></p> <p><b>Select <u>four</u> powerful words or phrases from <u>each</u> paragraph. Your choices should include imagery.</b></p> <p><b>Explain how each word or phrase is used effectively in the context.</b></p> <p><b>Write about 200 to 300 words.</b></p> <p><b><u>Up to 10 marks are available for the content of your answer.</u></b></p> </div>  | <b>10</b> |
|          | <p><b>General notes</b></p> <p>This question is marked for the ability to select powerful or unusual words and for an understanding of ways in which the language is effective. Expect responses to provide words (listed in the mark scheme on page 9) that carry connotations additional to general meaning.</p> <p>Mark holistically for the overall quality of the response, not for the number of words chosen, bearing in mind that there should be a range of choices to demonstrate an understanding of how language works for the higher bands, and that this should include the ability to explain images. It is the quality of the analysis that attracts marks. Do not take marks off for inaccurate statements; simply ignore them.</p> <p>The following notes are a guide to what good responses <i>might</i> say about the selections. They can make any <i>sensible</i> comment, but only credit those that are relevant to the correct meanings of the words in the context and that have some validity. Alternative acceptable explanations should be credited. Credit comments on effects created by non-vocabulary choices such as grammar/syntax and punctuation devices. They must be additional to comments on vocabulary.</p> |           |

**Marking Criteria for Question 2****Table A, Reading: Language analysis:**

Use the following table to give a mark out of 10 for Reading.

|                              |   |
|------------------------------|---|
| <b>Band 1</b><br><b>9–10</b> | Wide ranging and closely focused discussion of language with some high quality comments that add associations to words in both parts of the question, and demonstrate the writer's reasons for using them. Tackles imagery with some precision and imagination. There is clear evidence that the candidate understands how language works.                          |
| <b>Band 2</b><br><b>7–8</b>  | Explanations are given of appropriately selected words and phrases, and effects are identified in both parts of the question. Images are recognised as such and the response goes some way to explaining them. There is some evidence that the candidate understands how language works.  |
| <b>Band 3</b><br><b>5–6</b>  | A satisfactory attempt is made to identify appropriate words and phrases. The response mostly gives meanings of words and any attempt to suggest and explain effects is basic, vague or very general. One half of the question may be better answered than the other.   |
| <b>Band 4</b><br><b>3–4</b>  | The response provides a mixture of appropriate choices and words that communicate less well. The response may correctly identify linguistic or literary devices but not explain why they are used. Explanations of meaning may be few, general, slight or only partially effective. They may repeat the language of the original or do not refer to specific words. |
| <b>Band 5</b><br><b>1–2</b>  | The choice of words is insufficient or rarely relevant. Any comments are inappropriate and the response is very thin.   |
| <b>Band 6</b><br><b>0</b>    | The response does not relate to the question. Inappropriate words and phrases are chosen or none are selected.  |
