Cambridge Assessment International Education

Cambridge IGCSE™

COMBINED SCIENCE **0653/52**

Paper 5 Practical Test **February/March 2020**

CONFIDENTIAL INSTRUCTIONS

This document gives details of how to prepare for and administer the practical exam.

The information in this document and the identity of any materials supplied by Cambridge International are confidential and must NOT reach candidates either directly or indirectly.

The supervisor must complete the report at the end of this document and return it with the scripts.

INSTRUCTIONS

- If you have any queries regarding these confidential instructions, contact Cambridge International stating the centre number, the syllabus and component number and the nature of the query.

General information about practical exams

Centres must follow the guidance on science practical exams given in the *Cambridge Handbook*.

Safety

Supervisors must follow national and local regulations relating to safety and first aid.

Only those procedures described in the question paper should be attempted.

Supervisors must inform candidates that materials and apparatus used in the exam should be treated with caution. Suitable eye protection should be used where necessary.

The following hazard codes are used in these confidential instructions, where relevant:

C	corrosive	**MH**	moderate hazard
HH	health hazard	**T**	acutely toxic
F	flammable	**O**	oxidising
N	hazardous to the aquatic environment		

Hazard data sheets relating to substances used in this exam should be available from your chemical supplier.

Before the exam

- The packets containing the question papers must **not** be opened before the exam.
- It is assumed that standard school laboratory facilities, as indicated in the *Guide to Planning Practical Science*, will be available.
- Spare materials and apparatus for the tasks set must be available for candidates, if required.

During the exam

- It must be made clear to candidates at the start of the exam that they may request spare materials and apparatus for the tasks set.
- Where specified, the supervisor **must** perform the experiments and record the results as instructed. This must be done **out of sight** of the candidates, using the same materials and apparatus as the candidates.
- Any assistance provided to candidates must be recorded in the supervisor's report.
- If any materials or apparatus need to be replaced, for example, in the event of breakage or loss, this must be recorded in the supervisor's report.

After the exam

- The supervisor must complete a report for each practical session held and each laboratory used.
- Each packet of scripts returned to Cambridge International must contain the following items:
    - the scripts of the candidates specified on the bar code label provided
    - the supervisor's results relevant to these candidates
    - the supervisor's reports relevant to these candidates
    - seating plans for each practical session, referring to each candidate by candidate number
    - the attendance register.

Specific information for this practical exam

During the exam, the supervisor (NOT the invigilator) must do the experiments in Questions 1, 2 and 3 and record the results on a spare copy of the question paper, clearly labelled 'supervisor's results'.

For Question 1

Each candidate will require

(i) three beans such as kidney beans or broad beans, in a small container labelled **A** (see note 1)

(ii) three smaller beans such as coffee, mung and adzuki, in a small container labelled **B**

(iii) white tile

(iv) spatula or metal spoon

(v) iodine solution, provided in a bottle labelled **iodine solution**, with a dropper

(vi) ruler, 30 cm, graduated in mm

Notes

1. The larger kidney or broad beans should be placed in clean water and allowed to soak for 24 hours prior to the exam.

For Question 2

Each candidate will require

[F] **(i)** 1 g magnesium powder labelled **H**

[F][N] **(ii)** 1 g zinc powder labelled **G**

[F] **(iii)** 1 g iron powder labelled **J**

(iv) 1 g copper powder labelled **L**

[N] **(v)** 10 cm^3 aqueous copper(II) sulfate solution, 0.5 mol dm^{-3} labelled **aqueous copper sulfate**

[MH] **(vi)** 75 cm^3 dilute sulfuric acid, 0.75 mol dm^{-3} labelled **dilute sulfuric acid**

(vii) white spotting tile and means to label 4 wells

(viii) spatula

(ix) dropping pipette

(x) stirring thermometer, –10 °C to 110 °C with 1 °C graduations

(xi) stop-clock or sight of a clock with a second hand

(xii) 4 boiling tubes and a means to support them

(xiii) paper towels

www.dynamicpapers.com

For Question 3

Each candidate will require

(i) clamp, boss and stand

(ii) pendulum bob attached to approximately 50 cm of thread

(iii) split cork or similar to hold the thread in the clamp

(iv) stop-watch with a resolution of 0.01 s

Notes

1. The simple pendulum is to be set up for the candidates with the length of the pendulum, l, (distance from the point of support to the **centre** of the bob) 40.0 cm as shown in Fig. 3.1.

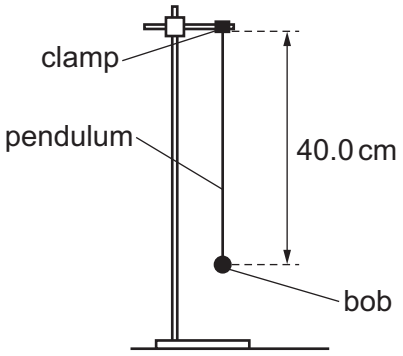

Fig. 3.1

2. At changeover reset the pendulum, if necessary, to match Fig. 3.1 with a length of 40.0 cm.

For Question 4

No apparatus is required for this question.

Supervisor's report

Syllabus and component number | | | | | / | | |

Centre number | | | | | |

Centre name .....

Time of the practical session .....

Laboratory name/number .....

Give details of any difficulties experienced by the centre or by candidates (include the relevant candidate names and candidate numbers).

You must include:

- any difficulties experienced by the centre in the preparation of materials
- any difficulties experienced by candidates, e.g. due to faulty materials or apparatus
- any specific assistance given to candidates.

Declaration

1 Each packet that I am returning to Cambridge International contains the following items:

- ☐ the scripts of the candidates specified on the bar code label provided
- ☐ the supervisor's results relevant to these candidates
- ☐ the supervisor's reports relevant to these candidates
- ☐ seating plans for each practical session, referring to each candidate by candidate number
- ☐ the attendance register

2 Where the practical exam has taken place in more than one practical session, I have clearly labelled the supervisor's results, supervisor's reports and seating plans with the time and laboratory name/number for each practical session.

3 I have included details of difficulties relating to each practical session experienced by the centre or by candidates.

4 I have reported any other adverse circumstances affecting candidates, e.g. illness, bereavement or temporary injury, directly to Cambridge International on a *special consideration form*.

Signed ..... (supervisor)

Name (in block capitals) .....
