| 3. Hajra counted the numbers of sweets in 20 packets. |
| :--- |
| The table shows information about her results. |
| $\qquad$Number of sweets Frequency <br> 46 3 <br> 47 6 <br> 48 3 <br> 49 5 <br> 50 2 <br> 51 1 |$.$|  |  |
| :---: | :---: |

Work out the mean number of sweets in the 20 packets.
The table shows information about her results.

10. Here are five shapes.
Four of the shapes are squares and one of the shapes is a circle.
One square is black.
Three squares are white.
The circle is black.
The five shapes are put in a bag.
(a) Jasmine takes a shape at random from the bag 150 times.
She replaces the shape each time.
Work out an estimate for the number of times she will take a white square.
Leave
blank
(b) Alec takes a shape at random from the bag and does not replace it.
B ashir then takes a shape at random from the bag.
Work out the probability that
The lines CA and CB are tangents to the circle.
$C A=5.7 \mathrm{~cm}$.
$\mathrm{CO}=6.9 \mathrm{~cm}$.
(a) Give a reason why angle CAO $=90^{\circ}$.
$\qquad$
$\qquad$
(b) Calculate the perimeter of the kite CAOB.
Give your answer correct to 3 significant figures.
12. The grouped frequency table gives information about the weights of 60 cows.

| Weight ( $\boldsymbol{w}$ kg) | Frequency |
| :---: | :---: |
| $100<w \leqslant 200$ | 10 |
| $200<w \leqslant 300$ | 16 |
| $300<w \leqslant 400$ | 15 |
| $400<w \leqslant 500$ | 9 |
| $500<w \leqslant 600$ | 6 |
| $600<w \leqslant 700$ | 4 |

(a) Complete the cumulative frequency table.

| Weight ( $\boldsymbol{w}$ kg) | Cumulative <br> frequency |
| :---: | :---: |
| $100<w \leqslant 200$ |  |
| $100<w \leqslant 300$ |  |
| $100<w \leqslant 400$ |  |
| $100<w \leqslant 500$ |  |
| $100<w \leqslant 600$ |  |
| $100<w \leqslant 700$ |  |

(1)

17. A curve has equation $y=x^{2}+\frac{16}{x}$
The curve has one turning point.
Find $\frac{d y}{d x}$ and use your answer to find the coordinates of this turning point.

| 18. <br> Diagram NOT accurately drawn <br> A solid hemisphere $\mathbf{A}$ has a radius of 2.8 cm . <br> (a) Calculate the total surface area of hemisphere $\mathbf{A}$. <br> Give your answer correct to 3 significant figures. | Leave blank |
| :---: | :---: |
| $\qquad$ <br> A larger solid hemisphere B has a volume which is 125 times the volume of hemisphere $\mathbf{A}$. <br> (b) Calculate the total surface area of hemisphere B. <br> Give your answer correct to 3 significant figures. |  |
| $\mathrm{cm}^{2}$ <br> (3) <br> (Total 6 marks) | $\text { Q } 18$ |
| PLEASE TURN OVER FOR QUESTION 19 |  |
