

6.

Figure 4

A golf ball P is projected with speed 35 m s^{-1} from a point A on a cliff above horizontal ground. The angle of projection is α to the horizontal, where $\tan \alpha = \frac{4}{3}$. The ball moves freely under gravity and hits the ground at the point B , as shown in Figure 4.

- (a) Find the greatest height of P above the level of A . (3)

The horizontal distance from A to B is 168 m .

- (b) Find the height of A above the ground. (6)

By considering energy, or otherwise,

- (c) find the speed of P as it hits the ground at B . (3)
