Paper 1 Short Answer/Essay

October/November 2019

MARK SCHEME

Maximum Mark: 40

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2019 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of **15** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

9609 Paper 1 Specific Marking Principles

Marks are awarded for each answer when the following Assessment Objectives (AO) are met. The mark scheme for each answer indicates when and how each AO can be met.

AO1 – Demonstrate knowledge and understanding of business concepts.

The focus in **Section A** of the Examination Paper is on this first AO.

- (a) **Questions 1, 2, and 4** will meet this AO using definitions and explanations of business concepts.
- (b) **Question 3** provides an opportunity for the application and a more developed explanation of a business concept. The 4–5-mark level specifically provides for this more developed explanation.

In **Section B** of the Examination Paper

- (a) **Questions 5, 6, and 7** still require supporting **Knowledge and Understanding (AO1)**, but there is now a focus on **Application (AO2)**, **Analysis (AO3)**, and **Evaluation (AO4)**. These skills are set out below:

AO2 – Apply knowledge and understanding of business concepts to general and specific situations and contexts.

- (a) Where a specific business or context is named in the question then the candidate is required to relate answers specifically to this business or context.
- (b) It is not sufficient to merely repeat the name of the business or the context.

AO3 – Analyse business problems, issues, situations and contexts, through a discussion and interpretation of evidence, debate, theory, impact and consequence, to produce reasoned and coherent arguments.

- (a) Level 3 answers will likely use terms such as – because, leads to, therefore, so that, as a result, consequently – thereby showing analytical development for AO3.

AO4 – Limited Evaluation is given

- (a) When an attempt is made, (probably in a concluding section of an answer), to address and comment on the value and validity of the previous analysis.
- (b) These comments may be quite brief and be more opinionated than reasoned.
- (c) A mere concluding summary of preceding analysis is, however, not evaluation.

AO4 – Evaluation occurs

- (a) When an answer comments on the validity/significance of previous analysis in an evidence based and reasoned way.
- (b) This often leads to the presentation of appropriate substantiated judgements, decisions, or recommendations.

Question	Answer	Marks
1(a)	<p>Define the term ‘random sampling’.</p> <p>Random sampling is a sampling method/technique/process (1) in which all members of a group or population (1) have an equal chance of being selected (1)</p> <p>Sound definition 2 of the factors listed above [2 marks] Partial definition 1 of the factors listed above [1 mark] No creditable content. [0 marks]</p>	2
1(b)	<p>Briefly explain <u>two</u> benefits to a business of using quota sampling as a method of collecting data.</p> <p><i>Answers may include:</i></p> <p>Quota sampling is when the population is stratified and an interviewer selects a specified number of respondents from each stratum.</p> <p>The benefits of quota sampling:</p> <ul style="list-style-type: none"> • It ensures that the sample is chosen to be representative of all the strata in the population. • Allows more accurate data to be collected as sample is targeted. • It is quicker to collect information from a quota sample as fewer individuals need to be contacted, therefore results can be processed more rapidly to give the company information to act on. • It is easier and more practical to collect information from a small number of individuals rather than a larger random sample, especially when the whole population is large and spread over wide geographic region, thereby keeping down costs and speeding up research. • It is cheaper to collect data from a smaller number of people as fewer researchers are needed, therefore the cost of wages is reduced. • It allows more detailed information to be collected and analysed in the time allowed because the quality of interviewing can be better as there are fewer people to question. <p>• Accept any other valid response.</p> <p>Sound explanation of two benefits to a business of using quota sampling as a method of collecting data. [3 marks] Sound explanation of one benefit or partial explanation of two benefits of using quota sampling as a method of collecting data. [2 marks] Partial explanation of one benefit of using quota sampling as a method of collecting data, or a list of two benefits, or a limited explanation of quota sampling. [1 mark] No creditable content. [0 marks]</p>	3

Question	Answer	Marks
2(a)	<p>Define the term ‘workforce planning’.</p> <p>Analysing/forecasting the numbers of workers (1) Analysing/forecasting the skills of those workers (1) Required by a business in the future to achieve its objectives (1)</p> <p>Sound definition 2 of the factors listed above [2 marks] Partial definition 1 of the factors listed above [1 mark] No creditable content. [0 marks]</p>	2
2(b)	<p>Briefly explain <u>two</u> benefits for a business of workforce planning.</p> <p><i>Answers could include:</i></p> <ul style="list-style-type: none"> • A business will identify the existing skills and qualifications of its existing workforce which gives a regular review of how appropriate the workforce is. • A business will identify gaps in skills of the existing workforce. • A business will analyse and anticipate the future needs of the organisation for particular skilled workers. • A business will ensure that in each department and throughout the organisation the numbers and skills of the workforce are appropriate. • Avoids the consequences of not having a workforce plan. • Assists the business to meet objectives and respond to current/future environmental/competitive situations. <p>• Accept any other valid response.</p> <p>Sound explanation of two benefits for a business of workforce planning. [3 marks] Sound explanation of one benefit for a business of workforce planning or partial explanation of two. [2 marks] Partial explanation of one benefit for a business of workforce planning or a list of two benefits or a limited explanation of workforce planning. [1 mark] No creditable content. [0 marks]</p>	3

Question	Answer	Marks
3	<p>Explain why the objectives of a business may change over time.</p> <p><i>Answers could include:</i></p> <ul style="list-style-type: none"> Define business objectives – the stated measurable targets (tactical, strategic, corporate, departmental) that move an organisation to achieve its aims and purpose. Objectives can include survival, growth, profit maximisation, sales growth, socially responsible aspirations. <p>Changes may take place in response to:-</p> <ul style="list-style-type: none"> Initial objectives achieved (survival). Competitive environment. New leadership and management. Technology developments may suggest new production possibilities. New opportunities arise with internal and external growth such as multi-national trade. Economic/external situation changes such as recession. <ul style="list-style-type: none"> Accept any other valid response. <p>Effective explanation of at least two reasons why objectives may change over time. [4–5 marks]</p> <p>Explanation of at least two reasons why objectives may change over time or effective explanation of one reason. [3 marks]</p> <p>Explanation of one reason why objectives may change over time. [2 marks]</p> <p>Descriptive information about business objectives. [1 mark]</p> <p>No creditable content. [0 marks]</p>	5

Question	Answer	Marks
4(a)	<p>Define the term ‘diseconomies of scale’.</p> <p>The situation where (average) costs of production increase (1) when the scale of operation is increased (1) when the business is large (1)</p> <p>Sound definition 2 of the factors listed above [2 marks] Partial definition 1 of the factors listed above [1 mark] No creditable content. [0 marks]</p>	2
4(b)	<p>Briefly explain <u>two</u> functions of an operations management department.</p> <p><i>Answers could include:</i></p> <ul style="list-style-type: none"> • To design, create, produce goods and services for an organisation and its customers – effectively. • To direct and control the transformation process so that it is efficient and effective and adds value. • To procure appropriate inputs in a cost-effective way. • To manage an appropriate inventory level effectively. • To focus on quality, speed of response, flexibility, type/cost of the production process. • To achieve an effective labour/capital production mix. • To incorporate latest technological approaches into the production process. • To choose the optimal location for the business. <p>• Accept any other valid response.</p> <p>Sound explanation of two functions of an operations management department. [3 marks] Sound explanation of one function of an operations management department or partial explanation of two. [2 marks] Partial explanation of one function of an operations management department or a list of two functions or a definition of operations management. [1 mark] No creditable content. [0 marks]</p>	3

Question	Answer	Marks																		
5(a)	<p>Analyse the advantages to an entrepreneur of purchasing a franchise to start a business.</p> <table border="1"> <thead> <tr> <th>Level</th><th>Description</th><th>Marks</th></tr> </thead> <tbody> <tr> <td>4</td><td>Good analysis of the advantages to an entrepreneur of purchasing a franchise to start a business.</td><td>7–8</td></tr> <tr> <td>3</td><td>Some analysis of the advantages to an entrepreneur of purchasing a franchise to start a business.</td><td>5–6</td></tr> <tr> <td>2</td><td>Some application of the advantages to an entrepreneur of purchasing a franchise to start a business.</td><td>3–4</td></tr> <tr> <td>1</td><td>Knowledge and understanding of a franchise/entrepreneur.</td><td>1–2</td></tr> <tr> <td>0</td><td>No creditable content.</td><td>0</td></tr> </tbody> </table> <p><i>Answers may include:</i></p> <p>Knowledge and Understanding</p> <ul style="list-style-type: none"> • Clear understanding of a franchise. • Clear understanding of an entrepreneur. <p>Application</p> <ul style="list-style-type: none"> • Reference to the advantages to an entrepreneur of purchasing a franchise or starting a business. <p>Analysis</p> <ul style="list-style-type: none"> • Lower risk of a new business failing – as an established brand and product is used. • The franchisor normally provides training and business advice. • Access to national/international marketing may be available. • Supplies are normally acquired from quality-checked suppliers. • Sales area is usually ring-fenced, providing some degree of monopoly power. • These advantages need to be paid for and often incur considerable costs. <p>• Accept any other valid response.</p>	Level	Description	Marks	4	Good analysis of the advantages to an entrepreneur of purchasing a franchise to start a business.	7–8	3	Some analysis of the advantages to an entrepreneur of purchasing a franchise to start a business.	5–6	2	Some application of the advantages to an entrepreneur of purchasing a franchise to start a business.	3–4	1	Knowledge and understanding of a franchise/entrepreneur.	1–2	0	No creditable content.	0	8
