Paper 4 Advanced Practical

February/March 2021

2 hours 30 minutes

You will need: Candidate source files (listed on page 2)

INSTRUCTIONS

- Carry out **every** instruction in **each** task.
- Save your work using the file names given in the task as and when instructed.
- You must **not** have access to the internet or any email system during this examination.
- You must save your work in the correct file format as stated in the tasks. If you save work in an incorrect file format, you will **not** receive marks for that task.

INFORMATION

- The total mark for this paper is 110.
- The number of marks for each task or part task is shown in brackets [].

This document has **8** pages.

You have been supplied with the following source files:

WorldMap.png
Delivery_Customers.csv
UpdateCards.rtf
Booking_Form_Trial.html

Create a folder called **Examination**. You must save all your work in this folder.
 Copy these files into this folder.
 Do **not** delete these files when submitting your work.

You must use the most efficient methods to solve each task. All work produced must be of a professional standard and contain your candidate details.

Task 1

Recolour and save a copy of the *WorldMap.png* file as **WorldMap_Colour_** followed by your centre number_candidate number
 e.g. *WorldMap_Colour_ZZ999_9999*

Land areas must be green.
 Sea areas and lakes must be light blue.

Use the *WorldMap_Colour* image to create this logo for **Tawara Global** deliveries.

Do **not** use any wrapping tools that may be available in your application.

- The land areas shown here must be visible.
- The ring must have a left to right, light to dark red, gradient fill.
- The text must be in a black sans-serif font.

Save the image in a **scalable vector graphics** format as **GlobalLogo_** followed by your centre number_candidate number
 e.g. *GlobalLogo_ZZ999_9999*

Using the same filename, export the image with a height of 500 pixels as a **bitmap** with a transparent background.

[25]

Task 2

Use your *WorldMap_Colour* image to create an animation that appears to show a globe continually spinning on a black background.

The animation should be created from the *WorldMap_Colour* image scrolling behind a fixed circular mask and the globe should appear to rotate once every 3 seconds.

Set the animation size to 500 pixels by 500 pixels and save the animation as an **animated gif** or a **.swf** file named **World_Spin_** followed by your centre number_candidate number
e.g. World_Spin_ZZ999_9999

[20]

Task 3

Create a database to store records of customers and any deliveries they may book in the future.

Name the database **Delivery_Bookings_** followed by your centre number_candidate number
e.g. Delivery_Bookings_ZZ999_9999

The data on customers is contained in **Delivery_Customers.csv**
Customers may book more than one delivery.

The fields in the bookings table must include **Delivery_ID**, **Collection_date**, **Delivery_date**,
Weight(kg) and **Charge**

The *Delivery_date* will always be the day after the collection date, unless the collection is on a Saturday, in which case the delivery will be made on the next Monday. There will be no collections or deliveries on a Sunday.

The *Charge* will be calculated using these rules:

- Up to and including 1 kg: £1.50
- Over 1 kg and up to and including 3 kg: £2.50
- Over 3 kg: £4.00

Deliveries weighing more than 5 kg are not accepted.

If the £ currency symbol is not available use your local currency.

Create a form in which to enter a new booking. The form should look like this:

Tawara UK

Collection and Delivery booking form

Delivery_ID	<input style="width: 80%;" type="text" value="2"/>
Customer_ID	<input style="width: 80%;" type="text" value="105"/> <small>▼</small>
Collection_date	<input style="width: 80%;" type="text" value="13/03/2021"/>
Delivery_date	<input style="width: 80%;" type="text" value="15/03/2021"/>
Weight(kg)	<input style="width: 80%;" type="text" value="0"/>
Charge	<input style="width: 80%;" type="text" value="£0.00"/>

Charge	<input type="text"/>	

[30]

Task 4

Open **UpdateCards.rtf** in a word processing application. You must use this file as a template for mail merging letters to customers. Read the instructions in the template carefully and insert appropriate merge fields to replace the instructions.

The merged letters must be consistently formatted and of a professional standard.

Use your database to create a data source to include the customers with ASSOC credit cards and also customers whose credit cards will expire in March 2021.

Letters to customers who have ASSOC cards should include the following text:

We regret that we can no longer accept payments made using ASSOC credit cards.

Letters to customers with other cards which will expire in March 2021 should include the following text:

We have the expiry date of your credit card as <CCExpires merge field>.

Save the merge document as **UpdateMergeDoc_** followed by your centre number_candidate number
e.g. UpdateMergeDoc_ZZ999_9999

Merge the letters and save the file as **UpdateLetters_** followed by your centre number_candidate number
e.g. UpdateLetters_ZZ999_9999

[20]

[Task 5 is printed on page 8.]

Task 5

Open **Booking_Form_Trial.html** in your browser to inspect the webpage.

Open *Booking_Form_Trial.html* in a text editor.

Insert code to display an alert with the text **We do not accept items weighing more than 5kg** if an entry exceeds 5kg.

Save the file as **Booking_Form_Weight_** followed by your centre number_candidate number
e.g. **Booking_Form_Weight_ZZ999_9999**

Insert code to display an alert with the text **Please complete all the information** if any fields are not filled.

Re-save the file as **Booking_Form_Fill_** followed by your centre number_candidate number
e.g. **Booking_Form_Fill_ZZ999_9999**

Insert code to display an alert with the text **We do not accept bookings on a Sunday** if the date input is a Sunday.

Re-save the file as **Booking_Form_Date_** followed by your centre number_candidate number
e.g. **Booking_Form_Date_ZZ999_9999**

Insert code so that if all fields are completed with valid data the page displays the text **The test booking entries are valid**

Re-save the file as **Booking_Form_Complete_** followed by your centre number_candidate number
e.g. **Booking_Form_Complete_ZZ999_9999**
