Location Entry Codes

As part of CIE's continual commitment to maintaining best practice in assessment, CIE uses different variants of some question papers for our most popular assessments with large and widespread candidature. The question papers are closely related and the relationships between them have been thoroughly established using our assessment expertise. All versions of the paper give assessment of equal standard.

The content assessed by the examination papers and the type of questions is unchanged.

This change means that for this component there are now two variant Question Papers, Mark Schemes and Principal Examiner's Reports where previously there was only one. For any individual country, it is intended that only one variant is used. This document contains both variants which will give all Centres access to even more past examination material than is usually the case.

The diagram shows the relationship between the Question Papers, Mark Schemes and Principal Examiners' Reports that are available.

Question Paper Mark Scheme Principal Examiner's Report Introduction Introduction Introduction First variant Principal First variant Question Paper First variant Mark Scheme Examiner's Report Second variant Question Second variant Mark Second variant Principal Scheme Examiner's Report Paper

Who can I contact for further information on these changes?

Please direct any questions about this to CIE's Customer Services team at: international@cie.org.uk

The titles for the variant items should correspond with the table above, so that at the top of the first page of the relevant part of the document and on the header, it has the words:

First variant Question Paper / Mark Scheme / Principal Examiner's Report

or

Second variant Question Paper / Mark Scheme / Principal Examiner's Report

as appropriate.

Paper 2 Structured Questions

May/June 2009

1 hour 30 minutes

Candidates answer on the Question Paper. No Additional Materials are required.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use a soft pencil for rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

DO NOT WRITE IN ANY BARCODES.

Answer all questions.

All accounting statements are to be presented in good style.

Workings must be shown.

You may use a calculator.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

9706/21/M/J/09 **[Turn over**

2 A During the year ended 31 March 2007 Jeremiah lost money through customers not paying the amounts due to him. On 1 April 2007 he set up a provision for doubtful debts account.

For Examiner's Use

REQUIRED

(a)	(i)	Give one reason why Jeremiah decided to set up this account.
		rol
		[2]
	(ii)	Describe two factors Jeremiah might consider when deciding the amount to be provided for in the provision for doubtful debts account.
		[2]
	(iii)	Explain the difference between the accounting treatment of a bad debt and a doubtful debt.
		[2]

On 1 April 2008, Jeremiah's provision for doubtful debts account had a balance of \$8000. This consisted of an anticipated loss of \$2500 which was the total owed by a debtor, Uriah, who had been declared bankrupt, and a general provision of \$5500, which was $2\frac{1}{2}$ % of **all** of his debtors.

On 31 May 2008 Liew, who owed Jeremiah \$1200, paid Jeremiah only \$0.40 for every dollar owed. The remainder was written off as a bad debt.

On 30 June 2008, Uriah paid Jeremiah \$0.35 for every dollar owed, in **final** settlement of his account.

On 28 February 2009 Jeremiah wrote off \$300 of overdue debts from various debtors.

On 31 March 2009 Jeremiah's total debtors amounted to \$205 000 and he adjusted his provision for doubtful debts account to 3% of that amount.

B Lari, a retailer whose financial year ends on 31 May, failed to check his stock until 8 June in 2009. At that date his stock at cost was valued at \$72 200. Lari's mark-up is 30% on cost.

For Examiner's Use

During the first 8 days of June, the following transactions took place:

		\$
(i)	Purchases of goods for resale	21 200
(ii)	Purchases returns	510
(iii)	Sales	25 740
(iv)	Sales returns (at selling price)	273
(v)	Goods taken for personal use, at cost	700

After taking stock, Lari discovered that the following items had been included in the valuation at 8 June:

- (vi) A parcel of stock which had been water-damaged. This had been on sale for \$390 but was now worthless.
- (vii) Stock which had cost \$1200 but was now out of fashion and would have to be sold for \$400 less than cost.
- (viii) Goods costing \$950 which Lari had acquired on a sale or return basis. He had not decided whether or not to keep them.
- (ix) Goods, sold during May for \$1560, which were awaiting collection by a customer.

REQUIRED

(a)	Explain the difference between mark-up and margin.
	[2]

3 Gala Sounds Ltd manufactures DVD players which sell for \$80 each. Production is 150 000 units per annum, all of which are sold.

For Examiner's Use

Unit costs at that level of production are:

	\$
Direct materials	40
Direct labour	8
Variable overheads	10
Fixed overheads	11

REQUIRED

culate one year's total profit or loss.	(a)
[7]	

The sales manager believes that if the selling price could be reduced to \$75 per unit, an additional 50 000 units would be sold.

The existing production of 150 000 units is based on a single day shift working a full day without overtime. The sales manager believes that an evening shift might also be introduced, using one-third of the number of workers employed on the day shift. This would mean that an annual total of 200 000 units could be produced.

As a result of the changes, the following would take place:

- 1 To compensate for unsocial hours, evening shift workers will be paid an additional \$2 per unit.
- 2 Variable overheads for the evening shift increase by 10%.
- 3 Economies of scale mean that a discount of 15 % will be received on purchase of **all** direct materials.
- 4 Fixed costs increase by \$1 000 000.

All production will continue to be sold.

© UCLES 2009 9706/21/M/J/09
