3 From the study by Saavedra and Silverman (button phobia):

(a) Outline how the subjective rating of distress was measured in this study.

.....

.....

.....

.....[2]

(b) Describe how the boy's distress rating changed over the first three sessions in response to imagining hundreds of buttons falling on his body.

.....

.....

.....

.....[2]

4 From the Andrade study (doodling):

(a) Outline **one** finding from this study.

.....

.....

.....

.....[2]

(b) Explain **one** real world application based on the finding you outlined in part **(a)**.

.....

.....

.....

.....[2]

5 Yamamoto et al. used chimpanzees as participants in their study about helping.

Describe **two** ethical guidelines for working with animals that are relevant to this study.

1 .....

.....

.....

.....

2 .....

.....

.....

.....[4]

6 **(a)** Describe **two** assumptions of the learning approach, using a different example for each assumption.

1.....

.....

.....

.....

2.....

.....

.....

.....[4]

(b) Explain how **one** finding from the Pepperberg study (parrot learning) supports **one** of the assumptions of the learning approach.

.....

.....

.....

.....[2]

9 **(a)** Some research has found that children readily imitate behaviour shown by an adult model when that model is present.

Describe **two** ways in which the Bandura et al. study (aggression) differs from this.

1.....

.....

.....

.....

2.....

.....

.....

.....[4]

www.dynamicpapers.com

(b) Explain **one** result from the Bandura et al. study that **supports** Social Learning Theory and **one** result that does **not support** Social Learning Theory.

Result that supports: .....

.....

.....

.....

Explain why: .....

.....

.....

.....

Result that does not support: .....

.....

.....

.....

Explain why: .....

.....

.....

.....[8]
