## SECTION B

Answer ALL questions in this section.

You should spend 60 minutes on this section.

**Evidence A: Center Parcs is all about family time**

The *Center Parcs* concept is to provide luxury short holiday breaks in a forest environment, bringing families together and back to nature with high quality accommodation. It offers a range of excellent leisure facilities and has more than 200 indoor and outdoor activities. These range from sailing and archery to ten-pin bowling and children's cookery courses.

5

It operates five villages in the UK each set within 400 acres of natural woodland, with trees, streams and wildlife. At the heart of each village is a Subtropical Swimming Paradise, an extensive range of restaurants, cafés and retail outlets, as well as a Spa. Bookings can be made via its website and in 2015 this accounted for 82% of all total bookings made. It has excellent brand awareness with 98% of people being able to recognise the *Center Parcs* brand when asked.

10

*Center Parcs* targets the premium end of the UK family short break market, offering an escape from the stresses and strains of modern life. With recent trends showing an increase in family short breaks, particularly in the UK, the *Center Parcs* concept is more relevant today than at any point in its 27-year history in the UK.

15

*Center Parcs* proves more popular every year with a long-standing run of growth in terms of visitor numbers, revenue and profits. Guest satisfaction (% of guests ranking their break as excellent or good) remains at 96% with consistently high levels of repeat bookings. Occupancy rates for 2014–15 were 97.5% compared to 97.2% in 2013–14. Employee turnover was 24% in 2014–15, down from 25% in 2013–14.

**Evidence B: New Village in Ireland**

In October 2015, *Center Parcs* submitted a planning application for a new village in Ireland. The company plans to develop a 395 acre site in County Longford, which will be its first venture into Ireland. The €233m development, named 'Longford Forest', will be ideally located in the middle of Ireland.

The planning application outlines the benefits that the project could have on both County Longford and the Irish economy. This will include adding €1bn to Ireland's GDP over a 20-year period and creating approximately 750 jobs during construction and a further 1,000 permanent jobs once operational. Subject to receiving satisfactory planning permission, Longford Forest could open to guests in 2019.
