Time 1 hour 30 minutes

Paper reference **4MB1/01**

Mathematics B

PAPER 1

You must have: Ruler graduated in centimetres and millimetres, protractor, pair of compasses, pen, HB pencil, eraser, calculator. Tracing paper may be used.

Total Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided – *there may be more space than you need.*
- **Calculators may be used**.

Information

- The total mark for this paper is 100.
- The marks for **each** question are shown in brackets – *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Check your answers if you have time at the end.
- Without sufficient working, correct answers may be awarded no marks.
- Good luck with your examination.

Answer all TWENTY SEVEN questions.

Write your answers in the spaces provided.

You must write down all the stages in your working.

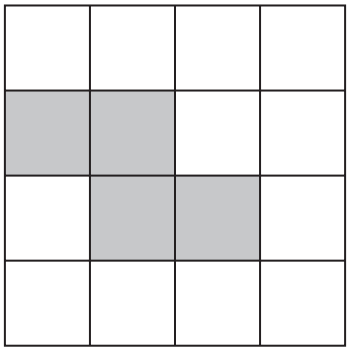

1 Factorise fully $8xy^2 - 18xy$

.....

(Total for Question 1 is 2 marks)

2 A pattern is made using a four by four grid with both grey squares and white squares.

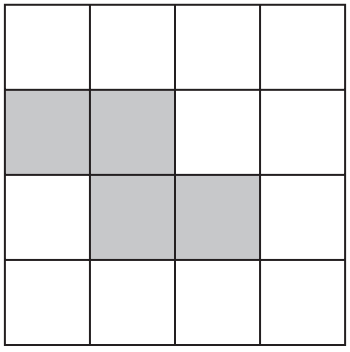

(a)

Shade **one** more square to make a pattern with exactly one line of symmetry.

(1)

(b)

Shade **two** more squares to make a pattern that has rotational symmetry of order 2

(1)

(Total for Question 2 is 2 marks)

9 A shopkeeper sells a radio for $27
For this selling price, the shopkeeper makes a profit of 8%

Calculate the selling price of the radio so that the shopkeeper would make a profit of 3

$ .....

(Total for Question 9 is 3 marks)

10 The integer N is greater than 120

When N is divided by 28 the remainder is 3
When N is divided by 120 the remainder is 3

Find the least value of N.
You must show your working.

.....

(Total for Question 10 is 3 marks)

www.dynamicpapers.com

11 Greg is organising a day out for his students.
Each of his students has to choose to take part in at least one activity chosen from rock climbing (R) and canoeing (C).

The cost for rock climbing is \$42
The cost for canoeing is \$34
The total cost for all the activities chosen by the students is \$3702

Given that $n(R \cap C') = 32$ and that $n(R \cup C) = 68$

find the number of Greg's students who chose to take part in both rock climbing and canoeing.
