Economics

Paper 1

You do not need any other materials.

Total Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided
– *there may be more space than you need.*

Information

- The total mark for this paper is 120.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*
- Calculators may be used.

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

Pearson

Answer ALL questions. Write your answers in the spaces provided.

Some questions must be answered with a cross in a box ☒. If you change your mind about an answer, put a line through the box ☒ and then mark your new answer with a cross ☒.

1 Figure 1a represents the demand and supply of electric cars.

Figure 1a

(a) (i) The original equilibrium point is X. For each of the following changes, starting from X, identify the new equilibrium point in Table 1. Each letter may be used more than once.

(4)

Change	New equilibrium point
A rise in the wages of electric car production workers	
An advertising campaign for electric cars	
A fall in consumer incomes	
An increase in subsidies for electric cars and an increase in the tax on petrol cars	

Table 1

In 2017 car production workers in the USA earned an average of \$25.58 per hour.

(v) The demand for labour is more important in determining wage rates than the supply of labour. Do you agree with this statement? Explain your reasons.

(6)

Aluco is a small American business manufacturing aluminium ladders. Table 2 shows its monthly costs.

Items	Cost in US\$
Rent	1 000
Loan repayment	500
Administration	1 500
Materials per ladder	45
Packaging per ladder	5
Labour per ladder	10

Table 2

(b) (i) Using examples from Table 2 explain the difference between a variable cost and a fixed cost.

(4)

4 The Philippines is said to be a developing country.

(a) (i) The characteristics of a developing country include

(1)

- A low GDP per capita, low population growth and low labour productivity
- B high GDP per capita, high population growth and low labour productivity
- C low GDP per capita, high population growth and low labour productivity
- D low GDP per capita, high population growth and high labour productivity

The European Union (EU) is the largest source of foreign direct investment (FDI) in the Philippines. It also provides an estimated 250 million euros in development aid.

(ii) Explain the difference between FDI and development aid.

(2)

.....

.....

.....

.....

FDI from the EU is said to have created 500,000 jobs in the Philippines.

(iii) **Apart from** creating employment, explain **two** other benefits that FDI can bring to the economy of a country such as the Philippines.
